GRISWOLD 'LEAKED' COLORADO ELECTION PASSWORDS TO PUBLIC

"We will not tolerate any effort to threaten THE security of our gold standard elections."
-Jena Griswold, Colorado Secretary of State

(Greenwood Village, CO) According to an affidavit sent to the Republican Party of Colorado, Colorado Secretary of State, Jena Griswold, shared a file on her website that contained over 600 BIOS passwords for voting system components in 63 of the state's 64 counties. On Thursday, October 24, 2024, those BIOS passwords were discretely removed by an unnamed official. A letter from the Colorado GOP has been sent to the Colorado Secretary of State's Office

"We hear all the time in Colorado from Secretary Griswold and Governor Polis that we represent the 'Gold Standard' for election integrity, a model for the nation. One can only hope that by the Secretary of State posting our most sensitive passwords online to the world dispels that myth."

"It's shocking really. At best, even if the passwords were outdated, it represents significant incompetence and negligence, and it raises huge questions about password management and other basic security protocols at the highest levels within Griswold's office." -Dave Williams, Chairman, Republican Party of Colorado

"I've never done anything with malice to break the law. I've only wanted to serve the people of Mesa County." -Tina Peters

"Peters two years ago claim[ed] problems with Mesa County's election equipment...That report alleges that some ballots were improperly tabulated...because of faulty equipment...She also claims the prosecutor tried to silence her because she allegedly exposed vulnerabilities with election equipment.
The Daily Sentinel, Grand Junction, Colorado

"Tina Peters willfully compromised her own election equipment trying to prove Trump's Big Lie. She has been found guilty of 4 felonies and 3 misdemeanors by a jury of her peers and will now face the consequences of her actions."
-Jena Griswold

WILL JENA GRISWOLD FACE THE CONSEQUENCES OF HER ACTIONS?

About

The **Lindell Offense Fund**, a 501(c)4 founded by Mike Lindell, is dedicated to securing U.S. elections on behalf of all Americans, regardless of party affiliation.
